

TOX PRE-CARE

Procedure: Tox
Pain Level: 3/10

Treatment Time: 15 Min
Downtime: None

Nothing is required. If it is possible to avoid taking aspirin, ibuprofen, and other anti-inflammatory drugs, please do so for 10 days prior to your appointment to decrease your chance of bruising. Also, it is best to schedule your appointment at least 2 weeks before major events (weddings, graduation, etc) to allow time for the effects of Botox to set in and for any possible bruising to resolve.
